

Route shut-off with blow out function, PN 5

6894

Product information

- Completely preassembled block fitting
- Compact design
- Faster installation on the construction site
- Height of the vent line adjustable
- Use of only one road cap
- Bypass function available
- Welding possible with all standard welding procedures

Characteristics

- Plastic fittings type ball valve 6890
- Operating pressure gas up to 5 bar
- Shut-off fitting: ball valve PE 110
- Vent fitting: ball valve PE 63
- Connection pipes PE 100, S5/SDR11
- Adaptable vent line
