

Ball check valve with loose flanges, tension strength, PN 16

9963

Design

- For water and waste water up to max. 40°C

Characteristics

- Incl. flange seals for loose flanges
- Loose flange can be freely rotated, resistant to tensile forces with the stop ring
- Drain opening 1/2" in the housing
- Montage und Demontage ohne Ein-/Ausbaustück möglich
- Betriebsdruck
 - max. 16 bar
- Operating temperature
 - max. 40 °C
- Flanschen-Anschlussmasse
 - nach DIN EN 1092-2

Material

- Ball: Metal core, vulcanised with NBR for waste water, EPDM for drinking water
- Gehäuse
 - Sphäroguss EN-GJS-400 (GGG 40)
 - EWS-Beschichtung nach GSK, RAL-GZ 662, Schichtdicke min. 250 µm

Caution

- Reduce screw length on the loose flange to make it 5 mm shorter than a standard flange connection. Only use one washer per screw.
